

# SAFe® Release Train Engineer

*Facilitating Lean-Agile program execution*

**Facilitate and enable end-to-end value delivery through Agile Release Trains (ARTs)—and learn how to build a high-performing ART by becoming a servant leader and coach—when you become a SAFe® 5 Release Train Engineer (RTE).**

During this three-day course, gain an in-depth understanding of the role and responsibilities of an RTE in the SAFe enterprise. Through experiential learning, examine the RTE role in a Lean-Agile transformation. Learn how to facilitate ART processes and execution, coach leaders, teams, and Scrum Masters in new processes and mindsets. Explore how to prepare, plan, and execute a Program Increment (PI) planning event, the primary enabler of alignment throughout all levels of a SAFe organization.

With SAFe® 5 Release Train Engineer certification

# SAFe® Release Train Engineer

With SAFe® 5 Release Train Engineer Certification  
Based on version 5.0 of SAFe

## Who will benefit?

- RTEs and Solution Train Engineers (STEs)
- Program and project managers
- Scrum Masters
- Leaders and managers
- Agile coaches
- SAFe Program Consultants (SPCs)

## Prerequisites

The following prerequisites are highly recommended:

- Hold at least one current SAFe certification
- Have launched or participated in at least one ART and one PI

## What you'll learn

To perform the role of a SAFe® Release Train Engineer, you should be able to:

- Apply Lean-Agile knowledge and tools to execute and release value
- Assist with program and large solution execution
- Foster relentless improvement
- Build a high-performing ART by becoming a servant leader and coach
- Develop an action plan to continue your learning journey

## Topics covered

- Exploring the RTE Role and Responsibilities
- Applying SAFe Principles
- Organizing the ART
- Planning a Program Increment
- Executing a Program Increment
- Fostering relentless improvement
- Serving the ART
- Continuing your learning journey

*"The RTE class provided a great opportunity to network with other RTEs and facilitate real-life learning and takeaways."*

—Desirée Cuniberti RTE, Bloomberg LP

*"It usually takes about 36 months to bring a new TV platform to market but we had a minimally viable product in 8 - 10 months and brought the full product to market in 18 months. SAFe helped our relatively small team build and run a world-class product and guided us when in doubt, showing us the way toward Agile product development flow."*

**SIMON BERG** Agile Program Manager, Swisscom Entertainment Projects

## What you get

Class registration includes:

- Attendee workbook
- Preparation and eligibility to take the SAFe® 5 Release Train Engineer exam
- One-year membership to the SAFe Community Platform
- Course certificate of completion upon request

Attendees must attend all three days of the course in order to qualify for the exam.

## Exam prerequisite skills or knowledge

These skills and knowledge are highly recommended in order to be successful in passing the RTE exam:

- SAFe certification
- Cross-team communication skills
- Full use of SAFe principles in action
- Coaching Agile and SAFe facilitation and leading by example
- Launch or participate in at least one ART and one PI
- Working knowledge of team dynamics

## Professional Development Units (PDUs) and Scrum Education Units (SEUs)

- Attendees may be eligible to apply for 20 PDUs toward their continuing education requirements with the Project Management Institute (PMI) for PMP, PgMP, and PMI-ACP certifications
- Attendees may be eligible to apply for SEUs under Category C, toward earning or renewing their CSP through Scrum Alliance

## Annual renewal

Certifications expire one year from the date the certification is earned.

- Annual renewal fee: \$295
